Test ID	Objective	Description / Procedure	Test Data	Expected Result	Result	Req No.
TC_RGP_001	Verify that a user can successfully create an LPI by linking an existing Invoice.	1. Log in to the system. 2. Navigate to the Permit menu. 3. Click 'Create LPI'. 4. Select an existing Invoice from the list. 5. Fill in the required permit details. 6. Click 'Save'.	Username: user@tiffa.com Password: password123 Invoice No: INV-2025-001	The system successfully creates the LPI, links it to INV-2025-001, and displays the status as 'Draft'.	[-]	REQ-001
TC_RGP_002	Verify that the system prevents LPI creation if no Invoice is linked.	1. Log in to the system. 2. Navigate to the Permit menu. 3. Click 'Create LPI'. 4. Do not select or create any Invoice. 5. Attempt to fill in permit details and click 'Save'.	Username: user@tiffa.com Password: password123	The system disables the 'Save' button or displays an error message 'Please select or create an Invoice before creating an LPI.'	[-]	REQ-001
TC_RGP_003	Verify that the system correctly identifies restricted goods based on the 8-digit HS Code.	1. Navigate to the Invoice creation/edit page. 2. Add a product line item. 3. Enter an 8-digit HS Code known to require a permit (e.g., FDA controlled). 4. Save the line item.	HS Code: 39191010 (FDA controlled)	The system flags the product, displays an alert icon indicating a permit is required, and identifies the relevant department (e.g., FDA/௮௩).	[-]	REQ-002
TC_RGP_004	Verify that the system blocks customs declaration submission if all required permits are not in 'Accept' status.	1. Navigate to the Import Declaration menu. 2. Select a declaration containing restricted goods that require multiple permits. 3. Ensure at least one permit is still in 'Draft' or 'Sent' status (not 'Accept'). 4. Click 'Submit Declaration'.	Declaration No: DRAFT-DEC-001 Permit 1 Status: Accept Permit 2 Status: Draft	The system blocks the submission and displays an error message 'Cannot submit declaration. All required permits must be approved first.'	[-]	REQ-003
TC_RGP_005	Verify dynamic show/hide of mandatory fields based on the selected government department.	1. Navigate to the Permit creation page. 2. Select 'FDA (௮௩)' as the target department. 3. Observe the displayed fields. 4. Change the target department to 'Rubber Authority'. 5. Observe the displayed fields.	Department 1: FDA (௮௩) Department 2: Rubber Authority	The form dynamically updates to show only the mandatory fields required by the selected department, hiding irrelevant fields.	[-]	REQ-004
TC_RGP_006	Verify pre-submission XML data validation catches missing mandatory fields.	1. Open a Draft LPI for FDA. 2. Leave a mandatory field (e.g., 'License Type') blank. 3. Click 'Submit to NSW'.	License Type: [Blank] Target: FDA	The system halts submission, does not generate XML, and displays an error message highlighting the missing 'License Type' field.	[-]	REQ-005

Test ID	Objective	Description / Procedure	Test Data	Expected Result	Result	Req No.
TC_RGP_007	Verify the system enforces the One Invoice = One Permit (LPI) rule.	1. Navigate to the Permit menu. 2. Click 'Create LPI'. 3. Select an Invoice that is already linked to an existing active LPI. 4. Attempt to save.	Invoice No: INV-2025-002 (Already linked to LPI-2025-001)	The system prevents the selection of the invoice or displays an error 'This invoice is already linked to another permit. One Invoice = One Permit rule applies.'		REQ-006
TC_RGP_008	Verify permit creation using a Draft Customs Declaration Number.	1. Navigate to the Permit menu. 2. Choose to create a permit from a customs declaration. 3. Enter a Draft Customs Declaration Number. 4. Proceed with creation.	Draft Declaration No: DRAFT-0099	The system accepts the Draft number and successfully creates the permit request.		REQ-001
TC_RGP_009	Verify the system rejects Reference Customs Declaration Numbers for permit creation.	1. Navigate to the Permit menu. 2. Choose to create a permit from a customs declaration. 3. Enter a finalized Reference Customs Declaration Number. 4. Proceed with creation.	Reference Declaration No: REF-2025-8877	The system rejects the number and displays an error 'Permits must be created using a Draft declaration number, not a Reference number.'		REQ-001
TC_RGP_010	Verify that an Attorney can switch company contexts and data is filtered accordingly.	1. Log in as an Attorney affiliated with Company A and Company B. 2. Select Company A context. 3. Verify available invoices/data. 4. Switch context to Company B. 5. Verify available invoices/data.	Attorney User: attorney@tiffa.com Company A: Siam Trading Company B: Thai Export	The system successfully switches context without session loss, and strictly filters invoices and data to match the currently selected company.		REQ-007
TC_RGP_011	Verify that users can split invoice lines for the same product and lot number.	1. Open an Invoice. 2. Add a product line item with a specific Lot Number and Quantity. 3. Add another line item with the exact same Product and Lot Number but a different Quantity. 4. Save the invoice.	Product: PRD-001 Lot No: LOT-A1 Line 1 Qty: 50 Line 2 Qty: 50	The system allows multiple line items for the exact same product and lot number without throwing a duplicate error.		REQ-002
TC_RGP_012	Verify Attorney ID configuration behavior for internal vs external processing.	1. Open a Permit request. 2. Select 'Internal Processing' (Self-process). 3. Observe Attorney ID field. 4. Switch to 'External Processing' (Attorney). 5. Attempt to type freely into the Attorney ID field. 6. Select an Attorney from the dropdown/CIS list.	Internal User: admin@company.com External Attorney: attorney@agency.com	For internal, Attorney ID is hidden/optional. For external, the field is not a free-text box and correctly fetches data from Local Customer/CIS records.		REQ-003
TC_RGP_013	Verify visibility of Dynamic Master License Types.	1. Navigate to the Permit request form. 2. Click on the 'License Type' dropdown. 3. Verify the available options.	Expected visible types: 0, 1, 2	Only License Types 0, 1, and 2 are visible by default. Types 3-7 are hidden.		REQ-005
TC_RGP_014	Verify Product Origin auto-population from Product Master File.	1. Open a Permit request form. 2. Select a product that has an Origin defined in the Master File. 3. Observe the 'Origin' field. 4. Select a product without an Origin defined. 5. Observe the 'Origin' field.	Product w/ Origin: PRD-TH (Origin: TH) Product w/o Origin: PRD-NULL	For PRD-TH, the Origin field auto-fills with 'TH'. For PRD-NULL, the field remains blank and is editable by the user.		REQ-008

Test ID	Objective	Description / Procedure	Test Data	Expected Result	Result	Req No.
TC_RGP_015	Verify Permit Re-request logic for modified products.	1. Select an existing product for import that already has a valid permit. 2. Check the flag indicating a change in packaging/formula. 3. Attempt to proceed with the import.	Product: PRD-001 Change Flag: True (Packaging changed)	The system prompts the user that a completely new permit request is required due to the modifications.	[-]	REQ-009
TC_RGP_016	Verify Permit Dashboard display and sorting rules.	1. Navigate to the Permit Dashboard. 2. Observe the sorting order of the displayed permits. 3. Look for permits with 'Completed' or 'Finished' status.	Permits with statuses: Draft, Sent, Error, Completed	The latest updated records appear at the top. Permits with 'Completed' status are hidden from the main dashboard view.	[-]	REQ-010
TC_RGP_017	Verify successful Permit Cancellation for an 'Accepted' permit.	1. Open a Permit with 'Accepted' status (and no declaration sent). 2. Click 'Cancel'. 3. Select one of the 9 predefined reasons from the dropdown. 4. Submit the cancellation.	Permit Status: Accepted Reason: Reason 3 (Data Error)	The system accepts the cancellation, updates the status to 'Canceled', and logs the user and reason in the database.	[-]	REQ-011
TC_RGP_018	Verify Permit Cancellation is blocked if the customs declaration is already sent.	1. Open a Permit with 'Accepted' status. 2. Ensure the linked customs declaration has been sent/processed. 3. Click 'Cancel'.	Permit Status: Accepted Linked Declaration Status: Sent	The system blocks the cancellation and displays an alert 'Cannot cancel permit. Customs declaration has already been sent. Please cancel the declaration first.'	[-]	REQ-011
TC_RGP_019	Verify Special Case Permit Handling bypasses reason requirement and doesn't update Master.	1. Initiate a 'Special Case' permit request for an HS Code that normally doesn't require one. 2. Leave the 'Reason for Request' blank. 3. Submit the request. 4. Check the Product Master File for that HS Code.	HS Code: 99999999 (Not restricted)	The system processes the permit without validation errors for the missing reason. The Product Master File remains unchanged (HS Code is not marked as restricted).	[-]	REQ-013
TC_RGP_020	Verify that processed LPIs are locked and read-only.	1. Navigate to an LPI that is linked to a processed/completed customs declaration. 2. Open the LPI details. 3. Attempt to edit or cancel the LPI.	LPI Status: Completed Linked Declaration Status: Completed	The system hides or disables the Edit and Cancel buttons. The LPI data is strictly read-only.	[-]	REQ-005
TC_RGP_021	Verify module access sequencing (LPI requires Invoice module).	1. Log in as an Admin. 2. Navigate to Client Module Subscriptions. 3. Ensure the 'Invoice' module is deactivated for a client. 4. Attempt to activate the 'LPI' module for that client.	Client: Test Company Invoice Module: Inactive	The system prevents the activation of the LPI module and displays a warning 'Prerequisite Invoice module must be active.'	[-]	REQ-012
TC_RGP_022	Verify Employee Resignation and Data Replacement function.	1. Log in as Company Admin. 2. Navigate to User Management. 3. Select a user and click 'Deactivate/Resigned'. 4. Use the 'Replace' function and select a new active user. 5. Verify the reassignment of tasks/data.	Resigned User: old_emp@company.com Replacement User: new_emp@company.com	The resigned user's access is revoked. All active LPIs, tasks, and relevant data are successfully transferred to the replacement user.	[-]	REQ-008

Test ID	Objective	Description / Procedure	Test Data	Expected Result	Result	Req No.
TC_RGP_023	Verify FDA (෧෧.) System Integration Testing Scenario.	1. Create a complete and valid Restricted Goods Permit request for the FDA. 2. Click 'Submit to NSW'. 3. Monitor the EzyBUS exchange logs and the Permit status.	Target Agency: FDA (෧෧.) Valid XML Payload	The system successfully generates FDA-compliant XML, transmits it to the FDA test environment via EzyBUS/NSP, and receives an acknowledgment/response, updating the status accordingly.	[-]	REQ-010
